

# **Weekly Report**

Pingping Shang

2013.6.10~2013.6.16

## **Work in this week**

- 1 Using the mosaic plots to visualize the telecom data. The initiatory effect is a little hard to understand the real relations between outcomes and parameters, so we will add some additional views to remedy it. The views will include mosaic plots, information list and uncertainty visualization.
- 2 Take part in the brainstorming.

## **Plan for next week**

Implement a simple system with which to understand the outcomes with respect to the attributes or called as parameters.
